

The Ventures

From The Ventures official homepage: <https://www.theventures.com/about-us/>

Who Are The Ventures:

“In 1958, Bob Bogle and Don Wilson formed the nucleus of the original music group, The Ventures. The duo was joined a few years later by Nokie Edwards to record “Walk, Don’t Run”. The song hit Billboard’s Singles Chart on July 18, 1960 and peaked at #2. The rest, as they say, is history. The band became one of the most popular and biggest selling acts of the 1960s, and was prolific during the 60’s in terms of touring and recording, particularly albums.”

Members:

Don Wilson (rhythm guitar, 1958-2015),
Ian Spalding (rhythm guitar, bass, 2016-present),

Bob Bogle (lead guitar, bass, 1958-2005),

Rob Cammack, keyboards (1986)

According to Wikipedia The Ventures have released following number of albums:

I think that is a low estimate! In my discography are listed 127 albums of which I own 87. (January 2025)

The Ventures discography

Studio albums	60+
Live albums	30+
Compilation albums	80+
Video albums	10
Singles	72
Instructional Albums	5

The Ventures have re-released a lot of their albums with new numbers for the record, with new covers, with new title even new titles for the tracks! I have tried my best to collect and pair the different releases, but only releases from US, Japan and from Europe (Germany, England and Denmark) for the albums I have (those with labels scanned). I know it’s not complete.

The titles with **fat letters** have Leon Russell playing! A big thank you to Steve Todoroff and especially to William Sargent for his Leon “Bible” – “Superstar in a Masquerade” that has so much info on Leon’s recording sessions. You can buy it via Amazon.com – I recommend it!

Enjoy. All the best

René Aagaard, Allerød, Denmark in November 2023

The Ventures are the world's number one instrumental group. Wherever you go, you'll find one of their albums is tops in popularity. The swinging, driving sounds of The Ventures, which are heard North, South, East and West, are guaranteed to put you on your feet. As soon as the needle hits the groove, your feet will be tapping, and within seconds after that, the rest of you will be moving! This is the contagious sound of the Ventures. Contagious both in their original compositions and in their special treatments of some of today's hits.

This is a fever you'll want to catch; we warn you, it's contagious!
